Service	Price	
	Academic	Commercial
Edman sequencing		
Setup + 5 cycles	165.48 € per sample	241.86 € per sample
Each additional cycle	12 €	15 €
Enzymatic cleavage and HPLC analysis*	143,44 € per sample	173.68 € per sample
nanoLC-ESI-TOF-MS analysis for protein molecular mass determination (Top-down Proteomics)		
Per sample	64.82 €	90.12 €
nanoLC-ESI-MS/MS analysis for protein identification (Shotgun Proteomics)**		
Sample in gel	381.26 € 1 st sample 76.82 € add. sample (up to 10)	469.85 € 1 st sample 102.12 € add. sample (up to 10)
Sample in solution	289.51 € 1 st sample 78.82 € add. sample (up to 10)	360.07 € 1 st sample 104.12 € add. sample (up to 10)
2-DE analysis		
7 cm IPG strip, staining Zn/im, Page Blue	262.56 € 1 st sample 53.76 € each add. sample (up to 4)	315.07 € 1 st sample 56.16 € each add. sample (up to 4)
7 cm IPG strip, Ag staining	304.32 € 1 st sample 53.76 € each add. sample (up to 4)	304.32 € 1 st sample 56.16 € each add. sample (up to 4)
24 cm IPG strip, staining Zn/im, Page Blue	327.32 € 1 st sample 76.76 € each add. sample (up to 6)	392.78 € 1 st sample 83.76 € each add. sample (up to 6)
24 cm IPG strip, Ag staining	369.08 € 1 st sample 76.76 € each add. sample (up to 6)	442.90 € 1 st sample 83.76 € each add. sample (up to 6)
Prices do not include VAT.		
* Includes enzymatic (trypsin, chymotrypsin, endoproteinase Lys-C, endoproteinase Glu-C) cleavage of a sample and HPLC analysis of hydrolyzate.		
**Includes protein reduction, alkylation and fragmentation with trypsin, peptide C18 clean up and nanoLC-ESI-MS/MS analysis (1hr run), database search and report.
